Pigminted

Well guys and gals, this is going to be my last comic on Webtoons.

With work and all the other projects I'm working on I don't have the time anymore to consistently make comics.

I'm still going to be releasing random comics and stuff at www.Pigminted.com and on Instagram as Pigminted. Follow me on those if you want to see more stuff.

Until we meet again. I just want to say thank you guys for all your support. It meant a lot.
